

CHD Awareness Week

February 7th-14th

CHD Facts

-CHD stands for Congenital (meaning present at birth) Heart Defect(s)

-It affects 40,000 babies each year in the US (that is roughly 1 in 100)

-25% of babies born with a heart defect have a critical CHD meaning they need invasive surgery by the time they turn 1

-For most people with a CHD the cause is unknown

-There is no cure for CHD
